

E-waste Management

Introduction:

Electronic waste, or e-waste, is a term for electronic products that have become unwanted, non-working or obsolete, and have essentially reached the end of their useful life.

As per E-waste Rule 2016, the E waste defined as 'electrical and electronic equipment, whole or in part discarded as waste by the consumer or bulk consumer as well as rejects from manufacturing, refurbishment and repair processes.

E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being land filled.

E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.

Benefit of recycling of E-waste:

E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being landfilled.

E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.

Protects your surroundings- Safe recycling of outdated electronics promotes sound management of toxic chemicals such as lead and mercury.

Conserves natural resources- Recycling recovers valuable materials from old electronics that can be used to make new products. As a result, we save energy, reduce pollution, reduce greenhouse gas emissions, and save resources by extracting fewer raw materials from the earth.

Helps others - Donating your used electronics benefits your community by passing on ready-to-use or refurbished equipment to those who need it.

Saves landfill space - E-waste is a growing waste stream. By recycling these items, landfill space is conserved.

Recycling of E-waste:

The company has tied -up with the E-waste Recyclers India for collection of all our E-waste on PAN India and disposes the same at their plant at E-50, UPSIDC Industrial Area, 98 Km Stone, NH 2, Kosi Kotawan Distt Mathura, U.P., and India. Customer can reach or call on Toll Free No **1800-102-5679** .Our representatives explain them about process of disposal and make them aware about nearest drop point available to drop the e-waste also give information about incentive we will offer to them against their end of life product. If any customer wants to handover the material from their door steps, we do send either our logistics team or E-waste Recycler India team to collect the items and channelize the same to our e-waste partner plant for final processing

Dos & Don'ts**Do's:**

Always look for information on the catalogue with your product for end-of-life equipment handling.

Ensure that only Authorized Recyclers repair and handle your electronic products.

Always call our E-waste Authorized Collection Centres/points to dispose products that have reached end-of life.

Always drop your used electronic products, batteries or any accessories when they reach the end of their life at your nearest Authorized E-Waste Collection Centres/Points.

Always disconnect the battery from product, and ensure any glass surface is protected against breakage.

Don'ts:

Do not dismantle your electronic Products on your own

Do not throw electronics in bins having "Do not Dispose" sign.

Do not give e-waste to informal (Kabbadi) and unorganized sectors like Local Scrap Dealer/ Rag Pickers.

Do not dispose your product in garbage bins along with municipal waste that ultimately reaches landfills.

Collection Centres:

E-waste Recyclers India has signed an agreement with **OM Logistics Pvt Ltd. for reverse logistics** for Channelization of E-waste to the facility. Copy of an agreement is attached for smooth channelization of E-waste.
